

MÖLLER

Amazing what's possible.

*Workstation Pro plus*  
**The all-in-one solution**

Workstation Pro plus is a complete system offering seamless component integration for maximum performance, most efficient use and optimal outcomes in TLA infiltration, liposuction, and fat re-infiltration.

### *Versatility*

All-in-one solution tailored for a range of procedures including liposuctions, liposculpture, buttock and breast augmentation, High-Definition Lipo and more.

### *Efficiency*

Enjoy a seamless experience from infiltration to re-infiltration, with perfectly aligned components.

### *Economy*

Get more for your money with our attractive product packaging.

### *State of the Art*

Stay compliant with ASPS, ASAPS, ISAPS, ISPRES and IFATS guidelines for safe fat transfer.

### *Certified Quality*

Meet the highest standards – CE (MDR), FDA, INMETRO certified.

### *Made in Germany*

Benefit from the outstanding quality and reliability of German engineering.

### *Simplified Service*

A single source provider and a single point of contact make maintenance, repairs, support and spare parts procurement easier.

*Workstation Pro plus*  
**Your Comprehensive Suite for  
Body Sculpting Excellence**

**Vibrasat® Pro**

Vibrating handle for gentle, powerful liposuction and infiltration.

**Liposat® Pro plus**

Precision pump ideal for accurate TLA infiltration, and fat re-infiltration.

**Vacusat® power**

Exceptionally quiet and powerful surgical aspirator.

**Thermia Pro**

Advanced heating trays to maintain optimal temperatures to effectively reduce patients risk of hypothermia.

**Movable**

Easily stored and flexible for seamless movement between operating rooms.

*“The Workstation Pro plus by MÖLLER represents the evolution of liposuction devices. It ensures efficiency, minimal discomfort, preservation of tissue, reducing harmful impacts and mitigating adverse events, alongside precise lipofilling with a notably high success rate.”*
